Dear Cincinnati Resident:

The Street Rehabilitation Program is one very important way that the City of Cincinnati is working to improve the quality of life in our neighborhoods. It is through this program that we continue to invest in our communities, improving the look and ride quality of the street system.

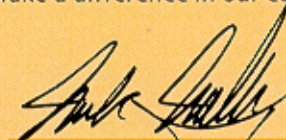

The streets that are scheduled for rehabilitation under the 2006-07 Program are listed in this brochure. Every neighborhood will have some of its streets paved at least once every three years based on extensive evaluation by an outside consultant under the direction of city engineers.

As the City undertakes the process of improving these streets, you may encounter raised manholes or uneven roadways until all work is completed. We ask for your patience, and request that you observe caution when driving on streets under construction. Once work is completed, we believe that you will be pleased with the results for years to come.

The Street Rehabilitation Program is just one more way that the City of Cincinnati provides valuable services that make a difference in our community.

Sincerely,

David E. Rager, City Manager

Mark Mallory, Mayor

About the Street Rehab Program

The City of Cincinnati Department of Transportation and Engineering's Street Rehabilitation Program handles street resurfacing and significant curb repairs. This work includes grinding off the old roadway surface, resurfacing the pavement with new asphalt, and repairing/replacing curbs where necessary. Every Community in the City of Cincinnati will be targeted for roadwork on a three year rotation under the Street Rehab Program. The streets listed in this brochure are scheduled to be rehabilitated during the 2006 and 2007 construction seasons.

For more information on the **Street Rehabilitation Program** contact Dick Cline at dick.cline@cincinnati-oh.gov or at 352-6235.
